CARING COTTAGES

MAKING PROGRESS: Our new patient/family stay houses are progressing towards reality. With Omnis Building Technologies hard at work, construction is scheduled to finish in July. These cottages will offer a welcoming environment and allow families to remain close to their loved ones throughout their medical journeys. We would especially like to thank the Mon Health Medical Center Auxiliary for their unwavering support of this project, and stay tuned for the announcement of the open house!

PRESTON RINGS 1st BELL

The Cancer Care Team at Preston Memorial Hospital celebrated the graduation of its first patient and the first ringing of the newly installed bell. The plaque which holds the bell was designed and crafted by our Mon Health family members, Brian Steffke and Roxanna and Curtis Stiles. The Cancer Center, which opened in October, provides chemotherapy, lab services, and other oncology treatment, keeping cancer care close to home.

FIRST FRIDAY HIGHLIGHT

THE ANGEL FUND

The Angel Fund benefits our cancer patients in financial need. There have been many instances where they've had to choose between paying for food and utilities, or medications and other treatments. This is unacceptable.

With your help, and in just the last 6 months, we have been able to support over 250 oncology patients, who have expressed tremendous appreciation. We provided gas cards and other transportation costs, meal tickets, medications, hotel stays, and even a loan payment. In addition, our Wig and Bra Bank had over 30 visits, where one young girl with total hair loss was able to find a wig for her senior prom. We can only do it together!

Together, this is how we MAKE THE DIFFERENCE!
