## **COVID-19 Vaccines at Mon Health System**

*Page Updated January 12, 2021*

Mon Health System received the first round of vaccines on December 15, 2020 and followed the State of West Virginia guidelines for vaccine distribution. Currently, Mon Health System has only been given supplies for the purpose of vaccinating Mon Health System staff and physicians with an emphasis on frontline staff to continue to safely care for the community.

We are coordinating internally and with state and federal officials about how we will distribute COVID-19 vaccines. While COVID-19 vaccines are not yet available to the general public, we will continue to provide vaccination updates as they become available.

Visit [monhealth.com/coronavirus](http://monhealth.com/coronavirus) for updates.

### **How Do I Receive the COVID-19 Vaccine?**

Due to limited early supply, only frontline healthcare workers are receiving the COVID-19 vaccine at Mon Health System. We look forward to expanding COVID-19 vaccination to the general public as supplies become available in the coming weeks and months. We are developing a plan to widely distribute approved vaccines.

Mon Health System hospitals, doctors' offices, and clinics cannot provide patients with COVID-19 vaccines at this time.

### **West Virginians age 80 and over are now eligible to receive the vaccines.**

The state National Guard is finalizing vaccine-distribution plans for this age group and county health departments have already begun COVID-19 vaccinations with future clinics to be announced soon.

### **The West Virginia Department of Health and Human Resources (DHHR) COVID Vaccine Information Hot Line.**

The information hub has been created for residents with questions about the COVID-19 vaccines. It can be accessed at <https://dhhr.wv.gov/COVID-19/Pages/Vaccine.aspx>. The hub can be reached by phone at 1-833-734-0965 from 8 a.m. to 6 p.m. Monday through Friday, and from 9 a.m. to 5 p.m. on Saturday.
