A LETTER FROM **OUR PRESIDENT & CEO**

Philanthropy is the cornerstone to community support for a community asset like your Mon Health and Davis Health Hospitals, programs, clinics and services. Over the past year, we have worked hard to ensure we live our mission of *enhancing the health of our communities through clinical excellence one person at a time*. Our more than 5,000 employees across North-central West Virginia work tirelessly to ensure our communities receive world class quality expert care every time every patient. As I always say, philanthropy is the “margin for excellence” for we cannot purchase all the cutting-edge equipment, develop new approaches to medical care, and grow timely access without the support of philanthropists far and wide.

Since 2022, the merger of Charleston Area Medical Center (CAMC) Health System and Mon Health System to form Vandalia Health has continued to strengthen viability across the communities we serve. With Davis Health System joining our new health system in 2023, we continue to advance quality, safety, patient access and service close to home with consistency and coordination. We did not grow just to get larger; we grew to ensure we have the scale and resources to ensure our communities do not have to travel far for the care they need. Together, we come together to make THE difference happen for our patients, their families and our Vandalia colleagues. Over the next few months, you will see our system logo, the state flower of the Rhododendron, be more visible across the region. With our unified brand, you are ensured even more coordinated care and expertise across the state. We could not be more pleased and so humbled by your generosity!

Many thanks for your support and kindness. Without it, we would not be able to be the leading advanced community health system provider in West Virginia. You, our donors, are making THE difference happen.

David Goldberg

President and CEO- Mon Health and
Davis Health Systems;
EVP, Vandalia Health North

FROM THE DESK OF **THE EXECUTIVE DIRECTOR**

As I step into the role of Executive Director of Philanthropy for Vandalia Health North, I am grateful for the opportunity to serve alongside an extraordinary community of donors, volunteers, caregivers, and partners. This annual report reflects what is possible when generosity meets purpose. Across our three foundations and Vandalia Health North, your generosity continues to strengthen patient care, expand access, and provide comfort and hope to individuals and families when they need it most.

This year's report also reflects how we are working together more intentionally across our communities. While each foundation maintains its own history, relationships, and local impact, we are increasingly aligned in how we support the mission of Vandalia Health. That shared focus allows us to steward resources thoughtfully, respond to local needs more effectively, and ensure philanthropy continues to make a meaningful difference across the region.

Thank you for believing in this work and for the trust you place in us. Your generosity is shaping care today and helping build a stronger, more connected future for the patients and communities we serve.

Laura McCall

Executive Director
of Vandalia Health North

OUR SHARED PURPOSE

Our shared purpose reflects a commitment to working together in service of patients, families, and caregivers across our region. By aligning our efforts across three foundations and nine Vandalia Health North entities, including hospitals, clinics, and assisted living, we are better positioned to support high-quality care, improve access, and respond to both local and regional needs. This approach honors the relationships and trust built in each community while strengthening the overall impact of philanthropy throughout Vandalia Health North.

FOUNDATION HIGHLIGHTS

Each foundation remains deeply rooted in its community, guided by local relationships and donor intent. Together, they support care delivered across the Vandalia Health North region, ensuring generosity continues to make a meaningful difference close to home.

DAVIS HEALTH SYSTEM FOUNDATION

Supporting care close to home in rural communities

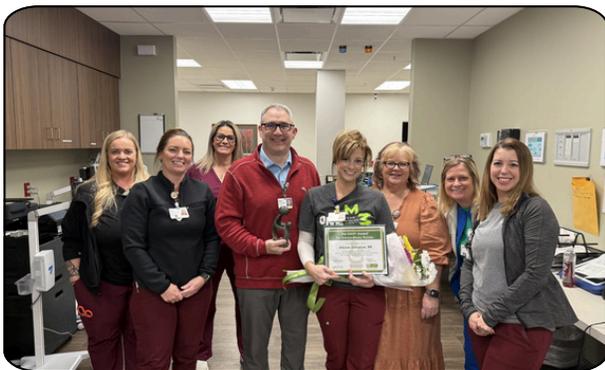

The Davis Health System Foundation is dedicated to ensuring patients in rural communities have access to high-quality care close to home. Donor support strengthens essential services, advances equipment and facility needs, and provides comfort and assistance to patients and families. Through strong community partnerships and thoughtful stewardship, the foundation plays a vital role in sustaining care across the region it serves.

MON MEDICAL CENTER FOUNDATION

Advancing care, innovation, and compassion

The Mon Medical Center Foundation supports a broad range of initiatives that enhance patient care and advance clinical excellence. Philanthropy helps fund technology, patient support programs, caregiver initiatives, and areas of emerging need. Guided by donor intent and long-standing community trust, the foundation ensures care is delivered with compassion, quality, and innovation.

PRESTON MEMORIAL HOSPITAL FOUNDATION

Strengthening access and care for the Preston County community

The Preston Memorial Hospital Foundation is focused on improving access to care and supporting services that matter most to the Preston County community. Donor generosity helps advance clinical services, invest in facilities, and enhance the patient and caregiver experience. Through strong local relationships, the foundation continues to make a meaningful difference for patients and families.

Together, these foundations support care across the Vandalia Health North, and the impact that follows reflects the collective generosity of donors across our communities.

BEYOND THE NUMBERS

IMPACT MADE POSSIBLE BY YOU

Behind every dollar raised is a story of care, commitment, and community. While this year's numbers reflect remarkable generosity and growth, the true impact of philanthropy is often found in quieter moments — in the comfort families experience during a free stay at a Caring Cottage, the reassurance provided through Patient Support Funds, and the meaningful programs and services made possible across Vandalia Health.

Through donor support, moments of uncertainty are met with compassion and possibility. Contributions help patients navigate some of life's most challenging chapters, ensure families feel supported beyond clinical walls, and allow our hospitals to respond to changing needs with intention and flexibility. Each gift, no matter the size, helps move care forward and reminds patients and families that they are not alone.

Our supporters do more than contribute financially — they invest in people. Their commitment expands access to advanced care, strengthens vital services, and makes it possible to deliver support when it matters most. Quite simply, this work would not exist without those who believe in our mission and choose to stand with us year after year.

Equally appreciated are the volunteers who generously give their time, energy, and heart to our hospitals and events. From welcoming guests to supporting fundraising efforts, their dedication brings our initiatives to life and extends our reach beyond what financial resources alone can achieve. Together, donors and volunteers form the foundation of our success — a powerful reminder that philanthropy is measured not only in dollars, but in a shared commitment to caring for one another.

AND THEN THERE WERE TWO **THE CARING COTTAGES**

The Caring Cottages at Vandalia Health Mon Medical Center were created to provide patients and families with a safe, comfortable, home-like place to stay when traveling to Morgantown for medical care. Located on the edge of the Mon Medical Center campus, the cottages help ease the emotional and financial burden of travel by offering close proximity to care in a supportive and welcoming environment.

The first Caring Cottage was completed in Fall 2025 with the second cottage joining near the end of the year, marking an important milestone in Mon Medical Center's commitment to caring for patients and families throughout the entire healthcare journey. Designed with comfort and convenience in mind, the cottages allow families to remain near loved ones during treatment, reducing stress and allowing them to focus on healing rather than logistics.

This meaningful initiative was made possible through the generosity of donors, community partners, and volunteers, with leadership support from the Mon Health Medical Center Auxiliary. Funds raised through the 2023 and 2024 Ball of the Years were instrumental in bringing the Caring Cottages from vision to reality. Together, these efforts reflect the power of philanthropy to create lasting resources that support patients, families, and compassionate care across our region.

CARE THAT GOES THE DISTANCE

THE TRANSPORTATION COMFORT FUND

As a community hospital, access to transportation for non-emergency care remains one of our most significant challenges. For many patients, getting home after discharge, attending follow-up appointments, or traveling to ongoing treatments such as cancer care is difficult — and sometimes impossible — due to limited transportation options or financial barriers.

Thanks to the generosity of our donors, the Transportation Comfort Fund was established in August 2024 to help bridge this gap. The fund provides patients with safe, reliable, and personalized transportation, improving access to care and easing stress during critical moments in their healthcare journey. One patient, Bruce, relied on the Transportation Comfort Fund to receive more than 60 rides to and from the Cancer Center for treatment and follow-up appointments — allowing him to focus on healing rather than logistics.

Since its creation, the Transportation Comfort Fund has supported 685 patients across a wide range of departments, including the Emergency Department, Oncology, Intensive Care, Gynecology/Oncology, Endoscopy, and Critical Care. Hospital staff have expressed relief knowing this resource is available, and its impact continues to grow. We are deeply grateful for the donor support that made this service possible and look forward to sustaining this vital program for years to come.

THE PERSEVERING, BRAVE & JOYFUL SERIES SUPPORTING CANCER CARE PATIENTS

Made possible through donor support, the Persevering, Brave, & Joyful Series was launched as a pilot program in 2024 to provide meaningful connection, encouragement, and joy for cancer care patients and their loved ones. Now in its third series, the program continues to grow in response to overwhelmingly positive feedback from participants.

Often referred to as PB & J, the series brings patients together for thoughtfully designed sessions that combine uplifting activities, shared experiences, and practical support. Participants engage in experiences that promote emotional well-being, enjoy a shared meal, and make meaningful connections — creating a welcoming space that fosters connection beyond clinical care.

By focusing on the whole person, the Persevering, Brave, & Joyful Series reflects the power of philanthropy to support healing in ways that extend beyond treatment. Donor generosity has helped create moments of comfort, strength, and community for those navigating cancer, reinforcing that care is not only about medicine, but about compassion, resilience, and hope.

HERE WE GROW AGAIN

From expanding current hospitals to planting new ones, we are proud to support the growth in our Northern Region.

Vandalia Health leadership and staff joined community members, county and city officials, and donors to celebrate a major milestone in the construction of the new Vandalia Health Mon Harrison Neighborhood Hospital at Pete Dye Golf Club during the annual DeLynn Memorial Golf Classic

The hospital is expected to be completed in 2026. With a total estimated investment of nearly \$30 million, the facility will bring advanced, accessible care to Harrison County and surrounding communities.

On December 19th, Mon Preston Memorial Hospital hosted a beam signing, marking an exciting milestone in the hospital's clinical expansion project. Staff, community members, and partners were invited to add their names and well-wishes to the final beam before it was placed. This symbolic moment celebrated growth, progress, and expanded access to care for the communities that we serve.

THE DAVIS HOUSE

Since 2012, the Davis House has offered cancer patients a complimentary “home away from home” when it is necessary to travel to the Davis Medical Center Cancer Care Center for treatment.

Community volunteers raised funds to renovate the home and create an endowment of more than \$500,000 to provide complimentary lodging so that our patients can focus on what matters most – getting well. In 2025, we graciously hosted 62 guests, with 480 guest nights to ensure comfort and proximity for the care needed.

JARED BOXES FOR CANCER CARE PATIENTS

The Davis Health System Foundation received over 300 Jared Boxes donated by various organizations to support our pediatric patients.

The Jared Boxes have delivered countless smiles, laughter, and hope to the children in the in the emergency department, surgical centers, and clinics. Each box contains small gifts, toys, games, and fun activities for each child!

THE FUTURE OF HEALTHCARE **STARTS HERE**

For the 2025–2026 academic year, the Mon Health Medical Center Foundation Health Career Scholarship Program awarded 54 scholarships totaling \$60,000, made possible through the generosity of our donors.

Each recipient brings a unique perspective and a shared commitment to a future in healthcare. We are proud to support their academic pursuits.

You can make a donation or share our scholarship application by going to the Scholarship page on the Mon Health Medical Center Foundation’s website.

- Wilma B. Nailler Scholarship

DAVIS HEALTH SYSTEM FOUNDATION SCHOLARSHIPS

Inspired by Dr. Mason Todd Corder's care for his patients and passion for helping others enter the medical field; the Davis Health System Foundation Scholarship recognizes and supports students who are continuing their studies in a healthcare-related field.

Each year, the DHS Foundation awards three recipients residing in Randolph, Barbour, Tucker, Pocahontas, Webster or Upshur Counties in West Virginia. Scholarships are granted to students entering a two or four-year college program or pursuing a certification in the healthcare field. Consideration may be given to past recipients if merited. The 2026 Scholarship application is open and can be access on the Davis Health System Foundation website.

PRESTON MEMORIAL HOSPITAL FOUNDATION SCHOLARSHIPS

The Preston Memorial Hospital Foundation has their own Health Career Scholarship. This scholarship is presented annually to two high school seniors that are pursuing a health-related career in college. These students are awarded \$1,000 each and are selected by a committee of their foundation members based on their applications.

The Preston Memorial Hospital Foundation also has an EMS Scholarship. This scholarship is designed to support and boost the EMS in Preston County by supporting a student that is pursuing an EMS degree through a local college. The Preston Memorial Hospital Foundation is looking to grow this scholarship program in 2026 and those interested should contact the foundation to learn more.

2025 WAS THE YEAR FOR EVENTS
**THANK YOU FOR BEING A
PART OF EACH ONE.**

JOHN DALY, FRIED FISH AND MORE AT THE **BOB HUGGINS FISH FRY**

More than 800 attendees enjoyed the February 1st event at Mylan Park, hosted by Hall of Fame Coach Bob Huggins and his family. Golf icon John Daly was the special guest and WVU Women's Basketball standout, Meg Bulger, emceed the night. The event had many surprises with a guest appearance by new WVU Football Coach, Rich Rodriguez, and John Daly performing with The Davison Brothers Band. In its 13th year, the event raised nearly \$600,000 to support cancer through the Norma Mae Huggins Cancer Endowment, which was established by the Huggins family after their mother died of colon cancer in 2013.

The Huggins family chose to partner with Vandalia Health to help provide cancer care across its seven cancer treatment centers, impacting the entire state of West Virginia. The event also supports Remember the Miners and the Mining Extension Program.

Special thanks to Little General Stores, the Huggins family, and the many generous donors for making this incredible event possible.

AN INAUGURAL EVENT FOR THE MON HEALTH MEDICAL CENTER AUXILIARY

THE DERBY

On May 3, 2025 the Auxiliary hosted their new signature event at 4T Arena in Bridgeport. The Derby is where southern charm meets fast-paced action. A ticket granted you access to an afternoon of racing action and upscale entertainment including live Kentucky Derby streaming, whiskey tasting, southern inspired treats, live entertainment and more. With one hundred fifty guests in attendance, the event's first year was a hit!

The second annual derby will take place on May 2nd at the 4T Arena. This year's proceeds will benefit the P3 program, Progressing Through Postpartum, a full-service virtual outreach program through the Mon Health OB/GYN clinic. We hope you will join us for another great year of derby themed fun!

THE  DERBY

DAVIS HEALTH FOUNDATION'S A DAY AT THE RACES

THE DERBY

Under a festive Kentucky Derby theme, The Davis Health System's 8th annual Derby Gala brought the community together for an evening of elegance, excitement, and purpose. Guests enjoyed signature cocktails, spirited entertainment, and friendly competition—all in support of our hospital's most critical patient care initiatives. Thanks to the generosity of sponsors, donors, and attendees, the event raised \$26,000 that directly enhanced services, expanded access to care, and improved outcomes for patients and families across our region. This memorable night truly showcased the power of community giving at its finest.

A DAY ON THE COURSE

From Pete Dye Golf Course to Stonewall Sporting Clays, you can find our amazing donors putting Philanthropy in action.

Proceeds from the WVRC Media Golf Classic and the Delynn Memorial Golf Classic supported Mon Health's Progressing Through Postpartum Program (P3), an initiative dedicated to strengthening postpartum care for new parents. The DHS Golf Classic proceeds supported Davis Health System's patient care programs and services.

What began as a day on the course, turned into a lasting impact for families across our community thanks to the generous sponsors, golfers, and volunteers at each of the classics.

WVRC MEDIA GOLF CLASSIC

\$90,000 RAISED

DELYNN MEMORIAL GOLF CLASSIC

\$105,000 RAISED

DAVIS HEALTH SYSTEM GOLF CLASSIC

RANDY ROGERS ORGAN DONOR WALL

SEE AN EXAMPLE

Located at the Vandalia Health Mon Harrison Neighborhood Hospital

SUPPORT THE DONOR WALL:

All proceeds from the Randy Rogers Memorial Clay Shoot will benefit an organ donor memorial wall. Individual donations can also be made via the Mon Health Medical Center Foundation.

If you would like to recognize a donor in life or death, please contact Laura McCall at Laura.McCall@VandaliaHealth.org

We look forward to sharing the final design upon the hospital's completion!

The 5th Annual Randy Rogers Memorial Clay Shoot raised over \$43,000. Proceeds from the Clay Shoot have not only directly benefitted organ donation, but are also supporting the Randy Rogers Organ Donor Wall to be located at the Vandalia Health Mon Harrison Neighborhood Hospital.

Randy Rogers was a donor in both life and death. In his memory, his family hopes that this organ donor wall will serve as both a recognition to donors and an encouragement for others to save a life or many by becoming an organ donor.

THE INAUGURAL VANDALIA HEALTH **DRAGON BOAT FESTIVAL**

The Dragon Boat Festival brought together competition, community, and purpose for an unforgettable day on the water. This high-energy event features teams paddling in traditional dragon boats, racing in unison while celebrating teamwork, camaraderie, and community spirit.

Thanks to the incredible support of our sponsors, volunteers, and participants, the festival raised \$66,000 in support of Mon Preston Memorial Hospital and Mon Stonewall Jackson Memorial Hospital. We would like to give a special thank you to Hope Gas for being the presenting sponsor of this inaugural event. These funds will directly impact patient care and vital services across our region.

The event welcomed over 300 attendees, more volunteers than we can count, and featured 10 teams competing throughout the day, creating an exciting and inclusive atmosphere for paddlers and spectators alike. Even though everyone was a first-time participant they all looked like seasoned competitors out on the water. The festival showcased the power of collaboration and community engagement.

As we plan our second year and beyond, our hope is that the Dragon Boat Festival will continue to grow as a signature fundraising event and that its success will reflect the generosity and dedication of everyone involved.

We look forward to welcoming our now seasoned competitors back this June and challenge new teams to join us as we paddle with a purpose!

PADDLE WITH A PURPOSE
ON JUNE 20, 2026

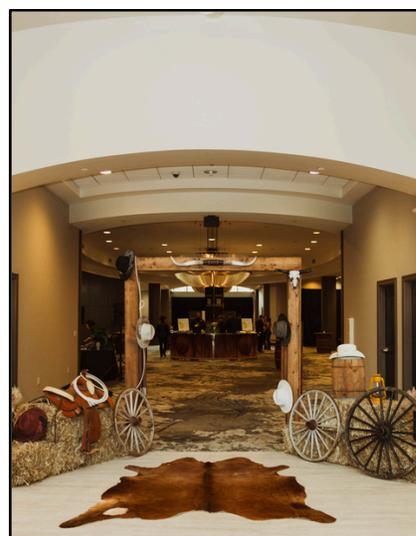

THE INAUGURAL VANDALIA HEALTH **BALL OF THE YEAR**

For 61 years, the Ball of the Year has been a cherished tradition in Morgantown—a celebration of community, generosity, and hope. This year marked a new chapter as Vandalia Health proudly hosted for the first time, expanding this beloved event’s reach to benefit eight exceptional facilities in our northern region: Vandalia Health Broaddus Hospital, Vandalia Health Davis Medical Center, Vandalia Health Webster Memorial Hospital, Vandalia Health Mon Medical Center, Vandalia Health Mon Marion Neighborhood Hospital, Vandalia Health Mon Preston Memorial Hospital, Vandalia Health Mon Stonewall Jackson Memorial Hospital, and The Village at Heritage Point.

This Ball of the Year is about more than elegance and tradition. It’s about the impact we can make together. Vandalia Health is not just a collection of hospitals; it is the strength of integration, the sharing of resources, and the uniting of expertise and compassion to deliver patient-focused care to every community we serve.

Frontier of Care: A Wild West Ball of the Year welcomed more than 700 guests for an immersive evening that blended philanthropy with an unforgettable Wild West experience. From line dancing and live entertainment to the excitement of a mechanical bull, guests were invited to fully step into the theme—creating an energetic, memorable atmosphere that celebrated community, connection, and purpose.

The event raised an extraordinary \$470,000, with proceeds benefiting greatest needs across the eight facilities in Vandalia Health's northern region. Thanks to the generosity of attendees, sponsors, and partners, funds raised will help advance access to innovative technology, strengthen essential programs and support compassionate care for patients and families throughout our region. More than a night of celebration, the Ball of the Year showcased how shared experiences and community spirit can drive meaningful impact and help shape the future of healthcare.

We would like to extend a special thank you to Hope Gas, our Frontier Sponsor, for their support of the Ball of the Year and Vandalia Health. We are truly grateful for their continued partnership.

FRONTIER OF CARE
A WILD WEST BALL OF THE YEAR

THE CHRISTINE BATTIN

Community Service Award

Honoring the legacy of its namesake and original recipient, Christine Battin, who was recognized for her extraordinary years of service to Mon Health as a dedicated Auxiliary member and former Auxiliary President. This award celebrates individuals who embody the same spirit of selflessness and leadership by going above and beyond in their commitment to community service. Recipients are recognized for their meaningful contributions to Vandalia Health and for the positive impact they make through service and volunteerism within their own communities.

CELEBRATING MON PRESTON MEMORIAL HOSPITAL **CHEERS TO 70 YEARS!**

Vandalia Health Mon Preston Memorial Hospital Celebrated 70 years of serving their community at the 83rd Annual Buckwheat Festival in Kingwood. Their participation included an anniversary float and artifacts display that took home 3rd place in the educational exhibits category. The float also included renderings of the new addition to the Oncology and Infusion Center that is slated to open in 2026

Mon Preston Memorial Hospital also hosted a 70th Birthday Celebration for its staff on July 15th. Those available gathered for birthday treats with their colleagues to honor this momentous occasion. Congratulations to Mon Preston Memorial Hospital! The community is thankful for all that you do.

LACE UP YOUR RUNNING (OR WALKING) SHOES! **MON STONEWALL JACKSON 5KS**

Since 2008, Mon Stonewall Jackson Memorial Hospital has brought the community together through its annual Weston 5K, an initiative rooted in promoting health, wellness, and connection. Over the past decade, this effort has grown to include a series of seasonal races that engage residents of all ages and abilities throughout the year. Despite weather-related challenges limiting the number of events in 2025, participation remained strong and spirited. Highlights included an October Breast Cancer Awareness Color Run benefiting the American Cancer Society, a Thanksgiving Day Gobble Gallop at Jackson’s Mill that welcomed more than 70 participants ranging from young children to a 90-year-old runner, and the Ugly Sweater Run held in partnership with the Town of Jane Lew. Additional races, including the rescheduled Groundhog Day Run and the annual Irish Spring Snake Run in collaboration with the local 4-H program, continue to reflect the hospital’s commitment to encouraging healthy lifestyles while strengthening meaningful connections across the community.

JOIN US IN RECOGNIZING

**OUR OUTSTANDING
PHYSICIANS.**

DR. WADE STOUGHTON & DR. ROGER KING

Physician Leadership Award

Honoring the legacy of Drs. Wade Stoughton and Roger King, two renowned and beloved physicians who were foundational members of the Vandalia Health Mon Medical Center medical staff, this award recognizes providers who exhibit keen leadership, vision, compassion and accountability practicing medicine with community-minded focus one patient at a time.

Dr. Allison Bardes is a native of West Virginia, originally from Green Bank. She earned her medical degree from the WVU School of Medicine and completed her residency at the WVU Eye Institute, where she served as chief resident and graduated in 2016. Dr. Bardes is a board-certified ophthalmologist who joined Regional Eye in 2020 after practicing with the Acuity Eye Group in California. She currently provides ophthalmology care—including cataract and refractive surgery—to patients in Bridgeport, Morgantown, and Weston. In addition to her clinical practice, Dr. Bardes serves as Chief of Staff at Vandalia Health Mon Stonewall Jackson Memorial Hospital, where she leads medical affairs and oversees medical staff initiatives with professionalism and integrity, balancing both private practice and hospital responsibilities.

**Dr. Allison
Bardes**

Dr. William “Bill” Burns has provided longstanding leadership to the Vandalia Health Mon Medical Center Credentials Committee. As the integration of our northern hospitals progressed, Dr. Burns assumed the role of chair for all Vandalia Health hospitals, overseeing the alignment, assessment, and review of medical staff credentials and privileging processes. He continues to maintain a distinguished surgical practice spanning multiple decades. A graduate of WVU School of Medicine with over 30 years of experience, Dr. Burns is highly skilled in a full spectrum of general surgical care. His clinical excellence has been recognized by US News, Healthgrades, and Newsweek, as well as through consistent patient commendations for his dedicated service.

**Dr. William
Burns**

Dr. James Gainer, a 1992 WVU graduate of WVU School of Medicine and Elkins resident, serves as Associate chief medical officer for Vandalia Health Davis Medical Center and previously chief medical information officer. As an interface between administration, providers, staff and the community, Dr. Gainer resolves issues between parties with grace and professionalism. Practicing medicine for 30 years, Dr. Gainer has practiced medicine in a clinic setting, served as a hospitalist at the bedside, served on the quality committee, peer review and the medical executive committee while still serving his patients’ medical care needs.

Dr. James Gainer

Physician Leadership Award Continued

Dr. Bruce Gorby is a board-certified family physician who has been providing addiction treatment since 2019 at Vandalia Health Davis Medical Center and Stonewall Jackson Memorial Hospitals. Certified by the American Board of Preventive Medicine, Dr. Gorby collaborates with peer recovery coaches, Valley Healthcare, and Vandalia Health hospitals to ensure that patients with substance use disorders receive comprehensive care and support in overcoming the stigma associated with addiction. He has led the development of the Comprehensive Opioid Addiction Treatment (COAT) model and the Overdose Survivors' Outreach Program, working diligently to make primary care, chronic disease management, and substance use disorder treatment accessible within the community.

Dr. Bruce Gorby

Dr. Jason McNair, chief of staff of Vandalia Health Mon Preston Memorial Hospital, received his medical degree from WVU School of Medicine with expertise in treating patients of all ages and a wide range of health issues including depression, sleep apnea, and diabetes among other conditions. After his residency in 2016, Dr. McNair made the intentional choice to return to his hometown and provides expert care with compassion, empathy, and kindness. A leader in population health management and hospital/clinic medical affairs, Dr. McNair is widely respected for his expertise and coordinated approach to high quality medical care.

Dr. Jason McNair

Dr. Misha Phillips-Lee is an Elkins native and a graduate of the WVU School of Medicine. She completed her residency at the Medical University of South Carolina and is board certified in family medicine. Dr. Lee currently serves as Chief of Staff at Vandalia Health Davis Medical Center, where she also contributes to the quality committee and peer review processes. Recognized for her leadership within the Medical Staff, Dr. Lee is noted for her comprehensive examinations, effective communication with patients, and consistent delivery of high-quality care, earning respect from both her patients and colleagues.

**Dr. Misha
Phillips-Lee**

Dr. Bradford Warden, an esteemed interventional cardiologist and lifelong resident of Greater Monongalia County, is a graduate of West Virginia University School of Medicine and the son of West Virginia's first cardiothoracic surgeon. Since 2016, Dr. Warden has played a key role in establishing the nationally recognized Vandalia Health Mon Heart and Vascular Center, working with a distinguished team of cardiovascular professionals. Under his leadership, the institution achieved several milestones, including accreditation as the 24th comprehensive heart care center by the American College of Cardiology, designation as the first electrophysiology-accredited hospital in West Virginia, and recognition by US News for excellence in heart failure treatment, among other national distinctions. In 2019, he contributed to the development of a clinically driven framework for launching the medical group—incorporating medical directors, service line leaders, and coordinated program initiatives—to enhance access, care, and quality outcomes. While also practicing clinically, his leadership has played an integral role in advancing the mission and vision of Vandalia and our provider led care team.

Dr. Brad Warden

PATRICK R. ESPOSITO AND CAROLINE ESPOSITO

Physician Excellence in Patient Care Award

Recognizing the service and leadership focus on quality and access to care Dr. Esposito has led as a former Vandalia Health North Board Member and Vandalia Health Mon Medical Center board chairman, this award has been named to honor the legacy of service by Dr. Esposito and his supportive wife Caroline focused on identifying those who providers who practice superior care and quality to the communities we serve.

Dr. John Battin brings over 25 years of expertise in urology, specializing in kidney stones and male reproductive and urinary health. As a respected authority in urological care within West Virginia and a former Chief of Staff at Mon Medical Center, Dr. Battin has diligently served the northcentral WV community for many years. He has been recognized by US News, Healthgrades, and his patients for providing knowledgeable, compassionate, and patient-focused medical care. Advancements in men's health and urology in the region are attributable in part to Dr. Battin's commitment to excellence.

Dr. John Battin

Dr. Garrett Butler is a board-certified family medicine physician located in Philippi, WV, with affiliations at Vandalia Health Broadus Hospital and Vandalia Health Davis Medical Center. He received his medical degree from the WVU School of Medicine and possesses more than eleven years of clinical experience. Dr. Butler provides comprehensive care to patients across hospital, clinic, and skilled nursing environments while serving as Chief of Staff at Broadus Hospital. His commitment to patient care has earned consistent recognition for his compassion and attention to detail, and he is highly regarded by colleagues for his leadership and dedication to high-quality, patient-centered service.

**Dr. Garrett
Butler**

Dr. Bonnie Forman is a family medicine physician in Kingwood, WV, and has more than 25 years of experience. A 1996 graduate of WVU, Dr. Forman has served as our inaugural primary care service line medical director, Clinical Affairs Medical Director for Vandalia Health Mon Preston Memorial Hospital, vice chair of the system's medical group and served on the Vandalia Health Network Board of Managers to ensure population health and evolving care pathways are implemented in primary care locations. A past chief of staff of Vandalia Health Mon Preston Memorial Hospital, Dr. Forman is recognized for her communication style, compassion and timeliness she exhibits with her patients and colleagues.

**Dr. Bonnie
Forman**

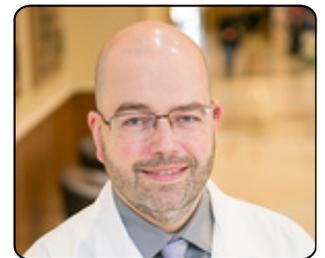

Physician Excellence in Patient Care Award Continued

Dr. Fred Gabriele has served the greater Monongalia County community for decades ensuring timely diagnostic and interventional care, selflessness focused on quality, compassion and personalized attention to ensure a patient does not go without the diagnosis needed for the care they need. A graduate of WVU School of Medicine, Dr. Gabriele's top areas of expertise are ascites, retroperitoneal inflammation, WTI-related wilms tumor syndromes and gallbladder disease.

**Dr. Frederick
Garbiele**

Dr. David Hall offers more than twenty years of experience in the field of urology to the community and has served in key leadership positions at Mon Medical Center, including Chief of Staff. A graduate of the WVU School of Medicine, Dr. Hall is recognized for his proficiency in urological care, including prostate, kidney and various other urologic procedures. His commitment to patient-centered care has led to accolades from organizations such as US News and Healthgrades, and patients consistently appreciate his individualized approach.

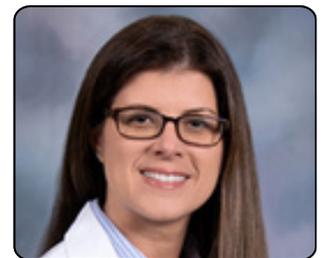

Dr. David Hall

Dr. Alexander Nagy, who earned his medical degree from the University of Tirgu-Mures Faculty of Medicine, has served as MHMC's lead cardiovascular surgeon since 2010. He has introduced advanced cardiac surgical techniques to the northcentral West Virginia community, enabling patients to receive high-quality care locally. Through collaboration with cardiology, Dr. Nagy has been instrumental in developing programs for mitral valve procedures, TAVR, thoracic endovascular interventions, and other advanced surgeries. These efforts have received commendations from US News, the Society of Thoracic Surgeons, Healthgrades, and several other respected third parties and helped drive high quality patient care.

**Dr. Alexander
Nagy**

Dr. Amanda Pennington, a graduate of the Marshall University School of Medicine, has contributed over 15 years of service as a board-certified pediatrician at Vandalia Health Davis Medical Center within the Elkins community. In addition to her clinical practice, Dr. Pennington holds leadership roles including Chair of the Credentials Committee, and memberships on both the hospital medical executive committee and board of directors, as well as involvement in other community activities. She is recognized for providing compassionate and expert care to pediatric patients from birth through young adulthood and is sought out by families far and wide for her tender, caring and expert medical care.

**Dr. Amanda
Pennington**

Dr. Todd Tallman, following in the footsteps of his father—a family physician in Fairmont and later New Martinsville—brings more than 30 years of experience. After graduating from WVU and completing his residency at CAMC, Dr. Tallman has dedicated himself to caring for patients throughout the region, with particular expertise in surgical conditions such as abdominal pain and colorectal cancer. Widely respected, Dr. Tallman is known for his kindness, warmth, and professionalism in serving his patients.

Dr. Todd Tallman

INTERMED LABS

Innovation Award

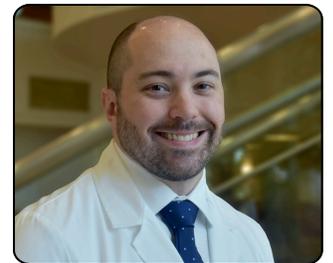

Intermed Labs is a distinguished, award-winning venture studio at the forefront of innovation in health technology. Partnering with visionary physicians, pioneering companies, and progressive health systems, we bring innovative ideas to life, creating transformative businesses that redefine the future of healthcare.

Dr. Samantha Crites, as the Director of Cardiovascular Imaging, has transformed the delivery of cardiac imaging services by developing an innovative program that expands access to advanced diagnostics without compromising expertise or quality. Recognizing the barriers patients face when traveling long distances for specialized care, Dr. Crites spearheaded a decentralized cardiac imaging model that integrates community-based satellite imaging with centralized expert interpretation and quality oversight. Through the strategic use of digital imaging platform and standardized protocols, Dr. Crites ensures that patients receive the same high standard of diagnostic accuracy and clinical insight—now closer to home. This initiative not only improved patient convenience and satisfaction but also enhanced early detection and continuity of care for cardiovascular disease across the region.

Drs. Matthew Gaskill and Salam Sbaity are both innovators in electrophysiology. They exemplify innovation in community medicine by bringing advanced technologies and cutting-edge practices to a local hospital setting—bridging the gap between academic excellence and community access. Committed to evidence-based practice, Drs. Gaskill and Sbaity continuously integrates the latest research findings and technological advancements into daily clinical workflows, ensuring that patients in the community receive the same high standard of care found in major academic centers. By fostering a culture of continuous learning and innovation, Drs. Gaskill and Sbaity have helped transform the community hospital into a center of excellence by being first in the state American College of Cardiology accredited Electrophysiology program, empowering patients to live longer, healthier lives and positioning the institution as a model for future-ready healthcare delivery.

Dr. Samantha Crites

Dr. Matthew Gaskill

Dr. Salam Sbaity

Intermed Innovation Award Continued

Dr. Marc Dotson, a graduate of the WV School of Osteopathic medicine specializes in emergency medicine and serves on the faculty of the Vandalia Health Institute for Academic Medicine. Dr. Dotson is transforming rural cardiac healthcare through compassionate innovation by advancing EKG interpretation and communication to save lives when minutes matter as a new Intermed collaborator to advance innovation and care pathways to improve care across Vandalia Health and beyond by sharing expertise to enhance care broadly.

Dr. Marc Dotson

Drs. Hurst and Hughes moved to West Virginia in 2022 and are already embracing their new home with advancing care after robust fellowships to advance foot and ankle surgical care across rural WV and importantly are the first in WV to use 3D technology to produce and implant the first 3D printed foot for bone surgery impacting the navicular bone (located in the middle of the foot).

Dr. Hannah
Hughes

Dr. Hannah Hughes attended Scholl College of Podiatric Medicine and completed her residency at The University of Pittsburgh, Mercy. She is ABFAS Board Certified in Foot Surgery and Reconstructive Rearfoot and Ankle Surgery and now practices in Elkins.

Dr. Michael Hurst attended Dr. William M. School College of Podiatric Medicine and completed his residency at The University of Pittsburgh Medical Center. He is ABFAS Board Certified in Foot Surgery and Reconstructive Rearfoot and Ankle Surgery and practices in Elkins.

Dr. Michael
Hurst

Thank you Intermed Labs for your continued support of Vandalia Health and our doctors.

THANK YOU TO OUR DONORS

**WE COULD NOT MAKE AN
IMPACT WITHOUT YOU.**
