Supporting Cancer Care

College Basketball Hall of Fame Coach Bob Huggins presented a \$380,000 check at the Mon Health Zelda Stein Weiss Cancer Center at Mon Health Medical Center as a part of his pledge from the 2024 Bob Huggins Fish Fry to support cancer care services across West Virginia through Vandalia Health. Mon Health's oncology providers, leadership, and the Mon Health Medical Center Foundation were in attendance to accept the donation.

"Cancer impacts so many, even my own family, so to partner with Coach Huggins, his family, and his friends to improve outcomes, access, and quality of care is so very important. We cannot do it alone and this community support is the difference. We are thankful for this relationship, friendship of the family and donors, and this very generous gift."

David Goldberg, President and CEO of Mon Health System and Davis Health System Vandalia Health North, and Executive Vice President of Vandalia Health

The Bob Huggins Fish Fry, held April 6th at Mylan Park, hosted over 1000 attendees who heard great stories from WVU great Meg Bulger and famed Steelers Rocky Bleier and Jack Ham. Bob Huggins chose to partner with Vandalia Health to help provide cancer care across its seven cancer treatment centers, impacting the entire state of West Virginia. Special thanks to Little General Stores, the Huggins family, and our generous sponsors for making this possible.

TOGETHER, WE MAKE THE DIFFERENCE

Supporting Cancer Patients

ANGEL FUND

In 2024, we supported nearly 500 oncology patients, who have expressed tremendous appreciation. We provided gas cards and other transportation costs, meal tickets, medications, and hotel stays. In addition, our Wig and Bra Bank had 138 visits, where one young girl with total hair loss was able to find a wig for her senior prom.

DOVE FUND

The Dove Fund at Preston Memorial Hospital Foundation, supports cancer patients in financial distress by covering prescription co-pays, gas, and even groceries. Funded through local donations, it is a testament to the compassion and generosity of our community, offers tangible results by alleviating financial worries, and allows patients to concentrate on what truly matters: their health and well-being.

PINK FUND

The Pink Fund provides free mammograms for our Preston patients without insurance. In October, Central Preston Middle School and South Preston School volleyball teams raised \$1,195 to support women through the fund. Each year, high school and middle school sports teams throughout Preston County host Pink Out games to promote awareness of breast cancer and the importance of screenings.

INDEPENDENTLY LIVING

MON PATHWAYS TO SUCCESS

This comprehensive program empowers those who have difficulty re-entering the workforce and prepares adults for successful lives through employment and educational opportunities within the Mon Health System. This program, founded in February 2023, has proven instrumental in fostering personal and professional growth among the participants. Mon Pathways to Success was initially supported by the Hazel Ruby McQuain Charitable Trust and additionally funded by the Appalachian Regional Commission.

Mon Pathways to Success graduated 5 employees from its 4th cohort in November.

"It helped me get a new lease on life, teaching me how to get back on my feet."

David, Pathways to Success Graduate

"It helps me hold my head up higher and has given me confidence and inspiration to come back to my dream as a Physical Therapy Assistant."

Glen, Pathways to Success Graduate

Supporting Nurses

MINDFULNESS BASED RESILIENCY FOR NURSES

The Mindfulness Based Resiliency Program, or MBRN, addresses two primary concerns of nursing in today's climate. In the wake of the Covid pandemic, the burnout rate of nurses reached as high as 70%. Nurses have struggled with increased rates of stress, anxiety, depression and PTSD. Studies have demonstrated a staggering rate of up to 65% of new nursing graduates leaving the profession in the first year. MBRN targets newly hired nurses who are transitioning to hospital nursing and develops a more resilient and sustainable nursing workforce.

The MBRN Program, currently funded by grants from the CareSource Foundation and ENCOVA Foundation, is spearheaded by Kathy Kerzak, Chaplain at Mon Health Medical Center, and has made a significant difference in the lives of our nurses. Led by Dr. Nancy Taylor, MBRN teaches participants coping mechanisms and other mental health skills to combat the often stressful career of nursing.

MBRN PROGRAM SKILLS

- MINDFULNESS
- COMPASSION / SELF COMPASSION
- EMOTIONAL INTELLIGENCE
- PERSONAL / PROFESSIONAL BOUNDARIES
- COPING WITH GRIEF & TRAUMA
- RESILIENCY

RETENTION RATE

"I utilize mindfulness, self-compassion and breathing exercises the most. Whether at home or at work, they help me to be calmer and kinder to myself. I really appreciate the positive reinforcement this program gave to me."

April, Mon Health ICU Nurse

Sporting Events Raise Over \$200,000

Our Mon Health vendors and the community came together to support our annual fundraising events while having some fun golfing at Pete Dye Golf Club in Bridgeport and clay shooting at Stonewall Sporting Clays in Roanoke, WV.

\$70,000

WVRC MEDIA GOLF CLASSIC

This sold-out July tournament supported the greatest needs of Mon Health Medical Center's patients and staff.

\$100,000

DELYNN MEMORIAL GOLF CLASSIC

Supporting the greatest needs of Mon Health, this August classic has been a premier fundraiser for 34 years, with a history of long-time attendees and new participants.

\$40,000

RANDY ROGERS MEMORIAL CLAY SHOOT

Proceeds from this 4th annual October event supported Mon Health's greatest needs and UNOS, the United Network for Organ Sharing.

Supporting Mothers

MOODr HEALTH INTEGRATED INTO P3 PROGRAM

Moodr Health is a secure messaging platform that supports perinatal wellness by encouraging patients to regularly share how they're feeling emotionally, mentally, and socially. Designed to prevent, identify, and treat conditions like anxiety, depression, and mood disorders, Moodr allows clinicians access to real-time insights so they can be proactive and personalize care for each patient. With outreach starting at the first pregnancy appointment and continuing through the first year after birth, clinicians can intervene before issues escalate, resulting in fewer hospitalizations and improved long-term health outcomes.

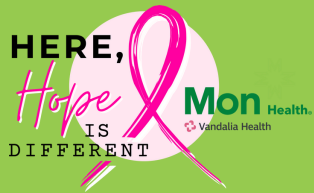

Since implementing Moodr Health in the P3 program, the impact has been substantial with a 43% improvement in mood and anxiety disorder scores.

2,400 Patients Enrolled

180,000 Patient Interactions

93% Satisfaction Rate

Supporting Women

HOPE GAS PARTNERS WITH MON AND DAVIS

Mon Health System and Davis Health System partnered with Hope Gas in October for the "Here, Hope is Different" campaign, raising awareness and encouraging women to receive potentially life-saving mammograms. Hope Gas provided the crossbody bags to every woman who received a mammogram during October. Morgan O'Brien, President and CEO of Hope Gas said, "By encouraging early detection through this campaign, we are helping to protect the health of women in West Virginia, ensuring they have the resources and support they need to stay strong and resilient."

STONEWALL COMMUNITY COMES TOGETHER

Stonewall Jackson Memorial Hospital and the Lewis County Community Educational Outreach Service (CEOS) Clubs joined together on October 9th to host the 30th Annual Breast Cancer Awareness Luncheon, encouraging women in the community to learn about the importance of early detection for breast cancer. Breast cancer survivor Jamie Clem Breen spoke on her experiences stating, "I want to inspire with the hope of health and wellness for my friends, family, and community. People must remain vigilant and receive their yearly screenings and recommended follow-up visits. Early detection saves lives."

MAMMOS & MESSAGES

Mon Health Medical Center's inaugural Mammos & Messages series included two special days dedicated to breast cancer awareness and self-care. After their annual mammograms, attendees enjoyed some delicious charcuterie from Baker Cheese, and indulged in relaxing massages provided by Triquetra Body, creating the perfect blend of health, wellness, and community support.

Supporting Education

The “Mary Virginia” traveled across West Virginia throughout 2024, providing labs and simulations for Mon Health Staff and WVJC nursing students and attending community events to educate the public. Designed to expand access to nursing education, the mobile training lab provides students and staff the opportunity to learn and practice in realistic situations. This innovation was made possible by the continued support of Ron and Stephanie Stovash, The Health Plan, the Hazel Ruby McQuain Trust, and the generosity of our community.

Simulation labs are now commonly used to train nurses and other healthcare professionals, but it is often cost-prohibitive and affixed to one location. This innovative model makes simulation training mobile, expanding its access beyond a single location. For Mon Health, this collaboration with WVJC provides simulation training for its current workforce at healthcare facilities throughout North Central West Virginia.

Supporting Preston

FIRST NIGHT OUT

Preston Memorial Hospital Foundation hosted another successful First Night Out on March 23rd, despite being postponed due to January snow! Guests all chose a different theme for their tables, ranging from baseball to tropical, and participated in raffles, auctions, and karaoke throughout the evening. The event raised nearly \$10,000 for cancer care in Preston County.

CANCER CENTER RINGS FIRST BELL

The Cancer Care Team at Preston Memorial Hospital celebrated the graduation of its first patient and the first ringing of the newly installed bell. The plaque which holds the bell was designed and crafted by our Mon Health family members, Brian Steffke and Roxanna and Curtis Stiles. The Cancer Center, which opened in October, provides chemotherapy, lab services, and other oncology treatment, keeping cancer care close to home.

Expanding Preston

Vandalia Health's Mon Health Preston Memorial Hospital has been awarded \$1.5 million through the West Virginia Rural Hospital Grant Program. The funding will enable the expansion of existing facilities to create additional patient care areas, further enhancing the quality of care provided to the Kingwood community and surrounding areas.

"We are deeply grateful to Governor Jim Justice and the state of West Virginia for this generous investment in rural health care and our hospital," said Melissa Lockwood, Chief Administrative Officer of Mon Health Preston Memorial Hospital. "This grant will significantly enhance our ability to serve our patients and meet the growing health care needs of our community."

The planned 6,000-square-foot expansion will feature a dedicated entrance for oncology and infusion patients to enhance infection prevention measures and provide a more private experience. The space will include eight infusion bays, three exam rooms, and additional clinical areas tailored to the needs of oncology patients. The expansion will also provide additional square footage for providers and support staff as well as shell space for future growth.

The \$1.5 million grant is part of a broader \$40 million distribution aimed at improving health care infrastructure and services at rural hospitals across West Virginia. The Rural Hospital Grant Program, launched in October, follows the appropriation of funds by the West Virginia Legislature during its most recent special session. The program is designed to address critical health care needs in rural communities by investing in the facilities and services that ensure residents have access to high-quality care close to home.

Auxiliary Celebrates 80th with Caring Cottage Groundbreaking

THE MON HEALTH MEDICAL CENTER AUXILIARY celebrated its 80th year with a groundbreaking in July for the first Caring Cottage, a patient family stay house on the Mon Health Medical Center campus. The Auxiliary provides additional support and services to hospital staff, patients, and the community. Since its inception, the Auxiliary has raised upwards of \$3 million for the hospital.

"It is a true honor to celebrate our 80th anniversary with the groundbreaking of the Caring Cottages project, a project that we have supported from its inception and know will enable Mon Health Medical Center to continue providing high-quality care to patients and their families across the region," said Chris Battin, Mon Health Medical Center Auxiliary President.

Our Philanthropy Directors, Luella Gunter and Laura McCall, were live in-studio at WAJR for a session of Mon Health Talk. Listen and learn about the Caring Cottage project and more!

Ball of the Year Celebrating 60 Years

THE MON HEALTH MEDICAL CENTER AUXILIARY celebrated its 60th anniversary of the Ball of the Year, its largest and longest-standing fundraising effort that supported vital programs and patient-focused projects such as Mon Health's Progressing Through Postpartum (P3) Program and most recently, the Caring Cottages.

The Auxiliary raised \$450,000 for our Caring Cottage, a home away from home for our patients and their families. We thank all of our generous sponsors who made this possible. Click to watch a short video of the "Wild, Wonderful, and Whimsical" evening.

CHRIS BATTIN, 2020-2024 Auxiliary President, receives the first Mon Health Community Service Award, named in her honor and recognizing her tireless volunteer work at Mon Health and in the community.

Supporting Health Careers

I am humbled & honored to receive this scholarship. It is greatly appreciated and will help alleviate some of the stress of paying for college. I am excited about my future as I embark on my nursing career!"

Gabby, 2024 Scholarship Recipient

For the 2024/2025 school term, the Mon Health Medical Center Foundation Health Career Scholarship Program awarded a record-breaking 54 scholarships with a total value of \$60,000, all thanks to our generous donors. Each of our recipients have unique personalities and impressive goals. Learn more in our "Future of Healthcare" Facebook series.

King Scholarship

Dr. Roger King was a vital part of Mon Health for 40 years. He was known not only for his skill and dedication as a surgeon, but for his compassion, commitment, and deep sense of responsibility for his patients and the community.

In memory of Dr. King, a new scholarship was created and is supported by the many generous donations from the King family and all those he impacted in the community. The King Scholarship, will be used to enhance and strengthen the surgical program at Mon Health for current employees.

- Virginia Ann Harris Memorial Scholarship
- Walter G. Hoffman, Jr. & Mary R. Hoffman Scholarship
- Wilma B. Nailler Scholarship

Enhancing Infusion Therapy

Sitting in heated, massage chairs isn't just for the spa. Vandalia Health, in partnership with the Norma Mae Huggins Cancer Endowment, utilized the proceeds from the 2024 Bob Huggins Fish Fry to ensure our infusion patients are the most comfortable they can be during treatment. Patients were expressing discomfort with the aging infusion recliners, as treatment requires them to sit in for several hours.

A total of 44 recliners were recently delivered to Stonewall Jackson Memorial Hospital Infusion Center, Mon Health Medical Center Infusion Center, Davis Medical Center Cancer Care Center, and CAMC Cancer Center-Beckley, providing infusion patients with a more comforting experience.

When I arrived at Stonewall Jackson Hospital for my weekly infusion, I was so surprised to see that we had luxury chairs in the infusion center. I never thought that getting an infusion could feel like sitting in a chair at the spa. It made a world of difference in my comfort and all the patients around me that day. I thank Bob Huggins for his work to raise money in support of cancer in West Virginia."

Mary, Stonewall Jackson Memorial Hospital Infusion Patient

This exemplifies how community donations are imperative to providing our patients with the best quality of care. Regan Siko, Mon Health and Davis Health Oncology Service Line Director stated,

"We are deeply grateful for the generous donation that has made it possible to provide state-of-the-art infusion chairs with heat and massage features for our cancer patients. These chairs offer not only comfort and support during long treatment sessions but also a sense of relief and care that greatly enhances the patient experience. This donation truly exemplifies the difference that compassionate giving can make in improving the quality of life for those undergoing cancer treatment. On behalf of our patients and staff, we extend our heartfelt thanks to the Huggins family and their supporters of the Norma Mae Huggins Cancer Endowment, who contributed to this meaningful initiative."

TOGETHER, WE MAKE THE DIFFERENCE

Supporting Pulmonary Care

THE ESPOSITO FAMILY PULMONOLOGY FUND supports advances in pulmonary care through our doctors at Mon Health Medical Center including training, staff, and programmatic needs. The fund is supported by multiple donors, including the Esposito family, local businesses, and the hospital.

Pulmonologists play a vital role in restoring and maintaining lung health, as they specialize in testing, diagnosing, treating, and managing a wide range of respiratory disorders. It's important they stay updated on the latest advancements in lung disease management, including new medications and surgical interventions. With West Virginia now ranking 49th for new lung cancer diagnoses in the United States, the support of this Pulmonology Fund is crucial to improving patients' overall health and quality of life.

Patrick Esposito, Sr. has been a champion for quality and readily accessible care for the Mon Health community, serving on both the Mon Health Medical Center and Mon Health System Boards for many years. In his honor, the Patrick R. Esposito and E. Caroline Esposito Physician Excellence in Patient Care Award was initiated, acknowledging his extensive scope of leadership and service. See the first recipients on the next page.

Recognizing Excellence In Patient Care

Dr. Christopher Edwards

Dr. Alan Hess

Dr. William McBee

Dr. Ihtishaam Qazi

PATRICK R. ESPOSITO AND E. CAROLINE ESPOSITO PHYSICIAN EXCELLENCE IN PATIENT CARE AWARD

This award was created to honor the years of leadership, service and contributions of longtime Mon Health Medical Center and former Mon Health System board member, Patrick Esposito, Sr.

Dr. Christopher Edwards believes "a patient's emergency is OUR emergency." He coordinates and continually works to improve every ER in our system. He has promoted visible wait times, the baby friendly designation, and the region's only certified Senior ED designation. Dr. Edwards has received national quality care recognitions, and boasts the fastest ER service in the state.

Dr. Alan Hess is an acclaimed leading primary care physician, providing years of service and quality care in our region. He is a former board member, and was voted "Best in Morgantown" in 2023. Dr. Hess consistently puts patients before self and has treated families with expertise and compassion for decades.

Patients come from all over the country to receive care from Dr. William McBee, nationally recognized for his advanced gynecology oncology services. He leads a Center of Excellence for Minimally Invasive Gynecology, serves on the MHMC Board, and chairs the MHMC Quality Committee. Dr. McBee ensures physician and patient voices are always heard.

Dr. Ihtishaam Qazi leads the efforts in ensuring patient access and the advancement of oncology services across our region. While serving Mon Health Medical Center, he has also enhanced service at Stonewall Jackson Memorial, launched new service at Preston Memorial, and is coordinating service at Davis Medical Center. Dr. Qazi ensures all have access to the highest quality cancer care.

Recognizing Excellence In Physician Leadership

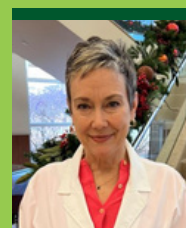

STOUGHTON KING PHYSICIAN LEADERSHIP AWARD

This award honors two recently passed physicians, Dr. Wade Stoughton, Urologist, and Dr. Roger King, General Surgeon, who served in leadership and patient care roles for decades. We thank these champions for their contributions, expert care of their patients, and their support of our colleagues and hospital.

Dr. Susan Capelle is an independent Urologist/Gynecologist advancing care and serving the region selflessly. She serves on the Mon Health/Vandalia Health North Board of Directors and System Quality Committee. Dr. Capelle is an active part of our patient centered vision for advancing the best quality care and ensures a physician voice in governance.

Dr. Mary Edwards exemplifies patient centeredness, quality and professionalism. Previously recognized as a "Wonder Woman", she is a board certified emergency room physician and medical affairs centered provider. She was stalwart during the Covid pandemic, leading us through the ebbs and flows during this most trying time. Dr. Edwards advances care and ensures the safest environment for our patients, colleagues, and community.

Dr. Mark Johnson leads our surgical service line with grit, heart and a drive for excellence in patient care. In between family, community service, tending patients, and providing care in a third world country, Dr. Johnson takes what little time he has left to train the next generation of doctors in all aspects. He is a voice of highest quality patient centered medicine in all ways possible.

Dr. Susan Capelle

Dr. Mary Edwards

Dr. Mark Johnson

Recognizing Excellence In Innovation

VANDALIA NORTH INNOVATOR AWARD

This award recognizes, celebrates and rewards innovative thinking and development of clinicians. It is designed to foster advanced care, technologies and modalities to improve patient care, quality and outcomes.

Dr. Wissam Gharib

The list of Dr. Wissam Gharib's achievements is long. He has led the development of the most advanced techniques to treat and diagnose structural heart illness and deformities. He is an international leader in Watchmen, a device to help reduce atrial fibrillation. He launched the mitral valve clip, performed the first cases of renal denervation in our region, and continues to advance minimally invasive cardiology procedures. Dr. Gharib's efforts are a major part of why our heart and vascular team has been recognized as the best in the state by the American College of Cardiology and US News and World Report.

Dr. Tom McClellan

Dr. Tom McClellan holds more than 60 patents for medical devices and technology. He created Intermed Labs, the state's first clinician led medical device studio, providing fellow innovators with a channel to share ideas, test viability and develop medical devices, bringing benefits to patients and providers. Dr. McClellan's efforts have produced many concepts that are benefiting patients world-wide.

Dr. Jaschar Shakuri-Rad

Through the vision and leadership of Dr. Jaschar Shakuri-Rad, we have seen great advancement in robotic and minimally invasive surgery. He has developed medical devices and identified technologies and techniques to ensure the best urological care possible for our state. Dr. Shakuri-Rad is world renowned, training providers in Europe on advanced urological approaches.
