Moving Forward, Together

Mon Health System has resumed medically necessary, time-sensitive elective procedures as of April 28, 2020.

Mon Health System is ready to resume care with strong safety protocols.

Our clinics are ready. Our doctors and nurses are ready. For a medical emergency, our emergency departments are ready, safe and cleaned to the highest standards to mitigate the spread of germs and infections. There's a reason why Mon Health is the most-trusted healthcare provider in our community.

We have a 75-year history of consistent, high-quality care with best-in-the-nation outcomes. **COVID-19 won't change that**. We know how to mitigate your risk, and we will only proceed with best-in-class care using methods and approaches that are evidence-based and CDC-recommended.

The following protocols are what you can expect from a Mon Health System hospital or clinic:

Patient Care & Staff Safety

To protect all patients and staff, extremely detailed plans are outlined in all Mon Health System facilities during the COVID-19 pandemic. These steps include:

- All staff are screened at the beginning of their work shift.
- All staff and patients are directed to wear face masks.
- Providers and clinical staff will always wear surgical or N95 face masks as appropriate.
 Enough resources of personal protective equipment are available to all staff and are worn based on CDC protocols of patient care.

Facility and Environmental Safety

In addition to screening and protective equipment protocol, Mon Health System is taking several measures to ensure both facility and environmental safety:

- Beginning June 1st, Mon Health facilities will allow (1) visitor for inpatients unless in isolation for suspected or confirmed COVID-19. No visitors are permitted for patients in outpatient clinics or emergency departments unless an essential caregiver is needed to assist with the visit.
- Infection prevention best practices, including the thorough cleaning and sterilization efforts between every patient visit in waiting areas, patient rooms, operating rooms and other patient-occupied spaces, will continue.
- Water fountains have been turned off, and food is pre-packaged. Public spaces such as waiting areas and patient areas have been carefully configured to promote social distancing.
- Masks and other personal protective equipment will be worn by all staff, patients, and visitors for the duration of the visit/procedure to ensure safety.

Surgical Safety

- Mon Health System meets all requirements outlined by the WV DHHR and OHFLAC to resume elective procedures.
- All patients scheduled for surgical or invasive medical procedures will be screened for COVID-19 and tested as criteria directs. For information on convenient drive-through testing sites offered by Mon Health System, visit www.MonHealth.com/Coronavirus.

Mon Health is restoring urgent elective medical services in the following areas:
